FUNCTIONAL EXPERTISE

- **Implement Web/Mobile design using HTML/CSS**
- **Implement Design on javascript frameworks like React**
- **Problem-Solving Skills/ability to optimize data for the best possible outcome**
- **Experience in Coding and continued research in UI Trends**
- **Ability to work in collaborative Environment**
- **Create Designs according to wireframes to present them to clients.**

FUNCTIONAL EXPERTISE DEMONSTRATED

MBI

2019– 2021

A brokerage solution to FX brokerages with 30+ employees. A ~\$2.5 million in annual revenue, and clients/partners like Microsoft, AM. branches in UAE, Main Branch In Cyprus.

UX/UI Developer

Design and implement UI Designs for JavaScript-based web/Mobile applications.

- **Implement Web/Mobile design using HTML/CSS:**(To see some protilio UX at once head here to [Projects](#)) : Still In Alpha [Beautiful Applicant Data](#) Where User could fill out the [KYC](#) application in an easy way.
- **Implement Design on javascript frameworks like React:** The fun does not just store with **Figma/HTML or CSS** I managed to implement the UX design in javascript frameworks like React [Simple Example](#).
- **Problem Solving Skills / ability to optimize data for the best possible outcome:** Did Use/Create a lot of Research Mater [Easier Flow Example](#) to simplify my job and the team's job in projects.
- **Experience in Coding and continued research in UI Trends:** **On Top Of My old 3+ Coding experience, I use materials** Such as [Another Example](#) Where I use materials like those to find the most optimal solutions.
- **Ability to work in a collaborative Environment:** Of Course, teamwork is important, worked many times in GitHub/DevOps and have experience with version control /push/pull requests, etc as well as proper communication with the team.

- **Create Designs according to wireframes to present them to clients:** Simply Can create any design wireframes or implement it in action for any website [Example](#).

freeCodeCamp

2015 – 2019

A non-profit organization with a mission to help anyone learn to code for free with 128 + employees, ~\$21.1 million in revenues, and serving Junior React Developers all the world.

React Js / Native Developer

Design and implement UI Designs for JavaScript-based web/Mobile applications.

- **Creating Reusable Components:** Huge amount of **Reusable Components** to use by teammates, an example in [Storybook](#) Login/Chat Components for Signalr(real-time chat application project).
- **Creating Libraries:** Did Quite a Few Libraries to be used in every single project by everyone in the team example, [React Customer Support](#) And [Z-Bootstrap](#).
- **Writing/Hosting Documentation:** Did The Documentation/Hosting Of Libraries use chromatic and markup language, Such as [Z-BootStrap](#), a minimal bootstrap version.
- **Creating Scalable Projects:** Still In Alpha [Real-Time Chat Application](#) Where Companies Could buy The Library as Subscription Packages
- **SSR & SSR & SEO using Next.js:** Creating Websites that would have Server Side Rendering, Static File Generation along with Search Engine Optimization a [Simple Example](#).
- **Hooks/Custom Hooks/Typescript/Props:** Did Use/Create a lot of [Huge Custom Hooks](#) to simplify my job and the team's overall TypeScript use in most of the projects.

VOLUNTEERISM/RELEVANT PROJECTS

ReactFluxi – Technical Support For Juniors(Remote): Collaborated with other developers to help Junior Developers solve their issues /bugs and learn to react at [ReactFluxi](#), a Server used to help React Junior Developers created on October 19, 2015.

Contribution– Contributor on GitHub Collaborated with the leading developer in creating another example for his documentation [React Flow Library](#) and [My Simple Example](#) Hosted in [CodeSandBox](#)

EDUCATION

Bachelor of Science(Computer Science). [American University of Beirut](#) (Hamra, Beirut)
