PROFILE

I am a senior student at Notre Dame University-Louaize with majoring in Computer Science. My main interests are mobile development and machine learning. I have fully immersed myself into android development for the past 6 months, and i have been growing ever since, I'm looking for a place where I can flourish, evolve and learn from the best in the industry.

I enjoy solving technical problems, researching, learning new technologies, and designing software applications. I am a quick learner with a fun, outgoing personality. In addition, I excel in my ability to work under pressure and handle stressful situations very well

SKILLS

- Kotlin
- CI/CD using Github Actions
- Version Control
- REST API's
- SQL databases (SQLite for android)
- Dependency injection
- C++
- Multithreading (threads , coroutines)
- OOP

EXPERIENCE

ANDROID DEVELOPER INTERN

I-magine Works
May 2022-Present

- Developed an app for educational purposes where I applied all what I've learned so far.
- Viewed and identified key application features..
- Made sure of the applications' performance, quality, and responsiveness.
- Teamed up with colleagues to identify, design, and dispatch new features.
- Helped sustain code quality and organization.
- Attended development meetings and made presentations.
- Was introduced to agile, and tasks were divided into sprints with deadlines.
