EXPERIENCE

Toters Delivery, Beirut — *Quality Assurance Tester*

Feb. 2021 - Apr. 2021

Spent two months with Toters Delivery as the QA tester responsible for Logistics and Finance departments where I collaborated with product managers, designers, and developers to enhance and improve the experience of users and stakeholders alike.

SKILLS

- Building Test suites and test plans using **Testrail**
- Debugging and building APKs for testing environments using **Android Studio**
- Cross Group collaboration and using **Agile methodology** and project management software (**JIRA**)
- Git/Github/Bitbucket
- Testing APIs using **Postman**
- Reporting bugs in **Gherkin**
- Continuous learning through reading (Art of Software testing) and Online courses
- Ability to work under pressure and collaborate with different teams throughout all phases of product development to ensure company standards and requirements are met
- Ability to find and recreate complex bugs and issues
- **Financial background** through the business - computer duality of my major, and being responsible for finance department QA at Toters

EDUCATION

Lebanese University, Beirut — *Management Information System*

Oct. 2017 - Aug. 2021
