Programming-languages/skills: Java - JavaScript - HTML5 - CSS - React.js - C - C# - MySQL - PHP - Asp.Net - Swing - UML - DataStructures - Android Development

Other: Microsoft Office Suite - Problem-solving - Teamwork - Time management - Business communication

TECHNICAL PROJECTS

Discover North Lebanon [Source Code](#) | [DEMO](#)

A web application that shows the different activities that can be done in North Lebanon's cities

- + The project is designed with figma as Desktop-First Design, built with React.js and ANT Design frameworks. Data is being stored in a local json file, used EmailJS for giving feedback and sending a request to be a tour guide.
- + I contributed in several roles, including the about-us page with the design and the app translation using react-i18next.
- + The project has been a great learning experience. I worked with great people and learned a lot about React hooks, higher order functions in JS and Ant Design framework.

Movie App [Source Code](#) | [DEMO](#)

An application used to fetch movies from themoviedb API

- + Environment: React, JavaScript, and TailwindCSS
- + Contributed in fetching movie data, routing the pages and styling, during this project I learned more about react-router and designing the app, plus I improved my teamwork skill.

WORK EXPERIENCE

Market Research Intern, Levantine Institute, Tripoli, Lebanon 09 /20 – 10 /20

- + Corresponded with 150+ mission-aligned universities & institutes in Australia, France, Norway and the Netherlands by mapping and sending mails.
- + Assisted the accounting department in arranging 200+ bills for the previous 6 months and optimized processes for tracking the institute's expenses.

EDUCATION

[Re:Coded](#) & [Flatiron School](#), Online Bootcamp 11 /20 – 03 /21

- + Front End Web Development (HTML/CSS, JavaScript, React)
- + 5 months of intensive project-based learning + immersive coding, with a simulated client project

Lebanese University, Koura, Lebanon 09 /18 – 09 /21
Bachelor Degree in Computer science

Certificates:

Leading Teams certificate (**University of Michigan**) - Customer-Centric IT Strategy certificate (**University of Virginia**) - Linux Essentials certificate (**Network Development Group**)
