Programming-languages/skills: Java - JavaScript - HTML5 - CSS - React.js - C - C# - MySQL - PHP - Asp.Net - Swing - UML - DataStructures - PL/SQL-DataBase Management System(DBMS) - Object-Oriented Programming(OOP).

Other:Microsoft Office Suite - Problem-solving - Teamwork - Time management

TECHNICAL PROJECTS

Car insurance company program [CODE](#)

An application that helps an insurance company to manage car insurances using a GUI interface.

- + Environment: JAVA, JDBC and MySQL
- + A final project for my university JAVA course that I have successfully passed with 17/20 grade.
- + The project has been a great learning experience. I learned a lot about using Collection framework and java GUI interfaces.

Tic-tac-toe multiplayer game [CODE](#)

A web application based on the classic tic-tac-toe game but with multiplayer functionality.

- + The project was designed with Figma as Desktop-First Design , built with HTML/CSS/JS for the front-end and PHP/MySQL for the back-end.
- + This project enhanced my knowledge in back-end development by using PHP to retrieve data from the database and to achieve a multiplayer experience.

Breaking bad movie application [CODE](#)

A web application that shows breaking bad movie characters with the ability to filter characters by name,age,etc...

- + The project was designed with figma and built with HTML/CSS and ReactJS and an external JSON API.
- + This project improved my knowledge and experience in fetching API using ReactJS with axios.

WORK EXPERIENCE

Waiter/Bartender, Batrouniyat, Batroun, Lebanon

08/18 – Present

- + Successfully managed 200+ client orders providing high-quality and fast customer service.

EDUCATION

CNAM University, Nahr ibrahim, Lebanon

09 /18 – Present

Bachelor Degree in Computer science (Final semester)
