

# ALI FAWAZ

## PRODUCT MANAGER

After being in the tech industry for more than a year and a half working on different web applications, following the agile methodology, I thought it was time to jump to product management positions as I was driven by the challenges they tackle and the problems they solve for people. Thus, I am eager to start my path towards becoming a product manager parallel to growing my product management knowledge.

## WORK EXPERIENCE

### PROJECT MANAGER CAPS | Apr 2021 - Present

- Create a clear and concise plan to both execute the project and monitor its progress
- Review the budget and plan ahead to avoid massive budget overruns
- Maintain effective communication and keep the company's clients up-to-date
- Identify, evaluate potential risks before the project begins and avoid them or at least minimize their impact
- Present comprehensive reports documenting that all project requirements were fulfilled, as well as the projects' history

### DATA ENTRY Live Love | Jan 2021 - Mar 2021

- Enter data from each call on Live Love's software
- Respond to calls on Live Love's hotline to take requests from beneficiaries affected by the Beirut Blast
- Follow up with the necessary team for cases that need immediate attention
- Coordinate with the different interns also taking calls to avoid duplicating work

### PRODUCT MANAGEMENT WorkSprint | Sep 2020

- Two-week intensive sprints designed to get you into product.
- Work experience:
- Ran through product iteration to launch a new digital product around "helping high-school students in figuring their next step"
  - Worked in a cross functional team of designers, engineers and domain experts to launch our product.
  - Investigated a new market opportunity and launched a testing environment
  - Applied first principles product management techniques to launch our product

### FULL-STACK WEB DEVELOPER INTERN Codi-tech | Dec 2019 - July 2021

- Delivered real client projects, following agile methodology
- Designed paper and digital wire-frames to lay out content and functionality on a page while taking into account user needs and user journeys.
- Created responsive web based applications using REACT, HTML, CSS and JS.
- Designed DB schema while working on sqlite.
- Acquired much knowledge on different front-end and back-end technologies such as Laravel, Node JS and React.

## EDUCATION HISTORY

### LEBANESE UNIVERSITY Bachelor's Degree in Electronics, 2020

### MAANIEH HIGH SCHOOL Lebanese Baccalaureate, 2015

## AREAS OF EXPERTISE

- Hands-on Arduino and C/C++ experience where my FYP (smart shoes) circulated about a device which allowed blind people to navigate to places without the special help of others.
- HTML, CSS and JS experience
- React JS framework
- Python experience
- General knowledge of MATLAB and LabView

## LANGUAGES

- Arabic:  
Native Proficiency
- English:  
Full Professional Proficiency
- French:  
Elementary Proficiency

## OTHER SKILLS

- The ability to work in a team
- Eagerness to learn even if there is a steep learning curve (self-learner)
- Being patient and approachable is a skill which I gained through tutoring students of all ages.
- Data Entry
- Goal-oriented
- Proactive
- Responsible
- Ambitious
