hani.aboufakher@lau.edu

Naturally curious and conscientious graduate seeking to broaden my knowledge and expand my skillset with an unwavering intention to unlock personal potential and thrive in a challenging and global organization – Enthusiastically looking forward to apply my interpersonal skills and further develop leadership capabilities in a multi-cultural environment. Having also experienced life in the oil field motivates me to follow my passion in such an industry. With a sincere passion about the future and direction of the energy sector, a career within the oil and gas industry would be a naturally preferred next step.

## EXPERIENCE

### SOCIETY OF PETROLEUM ENGINEERS

*Vice President 2019 - 2020*

- Acted as a liaison between the club and inter-faculty clubs and departments
- Communicated with other officers; chapter members; sponsoring section; faculty advisor and SPE staff.
- Organized live and virtual sessions for students about various topics related to the oil and gas industry.

### INTERNSHIP AT NESR ENERGY - IRAQ

*June 2019 - August 2019*

- Introduced the basics of SolidWorks concepts and the basics of drawing to my colleagues to be able to understand what each equipment is used for in the company.
- Prepared and presented a detailed study about the spooling activities that the company perform to my supervisors
- Trained on coiled tubing simulator
- Worked on Coiled Tubing field operations, acid stimulation, nitrogen pumping, water shut-off and spooling projects.
- Performed various simulations on Cerberus and Orion Software to measure the coil life for each operation.

### PART TIMER AT KH-GENERATORS - LEBANON

*2016-2018*

- Organized and managed various activities in the company such as wire distribution, equipment, and accounting.
- Created a bulk message that serves customers a free month subscription for electricity in our company by having a random name withdrawn from the list of subscribers every month.

### TUTOR AT ISP - LEBANON

*2016-2017*

- Contributed to the academic success to high school students in scientific subjects such as physics, chemistry, and math.

## EDUCATION
