EDUCATION HISTORY

Master Degree in Civil Engineering-Section : Buildings

Sept 2015 - July 2020

Lebanese University

- Graduation Project: Wohlen High School.

This project is the structural design of a HIGH SCHOOL, located at WOHLLEN, Aargau, Switzerland. The choice of the project is based on the diversity that the project presents in its structural elements. The project will tend to study architecture, the civil structural aspects of the building, as well as sanitary design.
