Education

Bachelor's Degree in Computer Engineering, *Lebanese American University* 09/2019 – 05/2023
Byblos, Lebanon

French Baccalaureate, *Lycee Louis Massignon* 2004 – 06/2019
General Sciences (15.5/20 grade) Abu Dhabi, UAE

Professional Experience

Consulting Intern, *PricewaterhouseCoopers (PwC)* 06/2022 – 08/2022
Abu Dhabi, UAE
I was assigned to a project with the Emirates National Oil Company. The project aimed to digitalize all operations and create a cloud storage system, and I was involved with the SAP implementation team as well as the Project Management team.

Projects

Offline Character Recognition using Machine Learning, *Intelligent Engineering Algorithms Course Project*
Developed a suite of models capable of recognizing characters using Python, OpenCV, and TensorFlow. The models include SVM, KNN, Decision Forests, an Artificial Neural Network and a Convolutional Neural Network

Full-Stack Web Application, *Database Course Project*
Coded a full-stack web app using NodeJS, EJS, HTML, and CSS. The project was required by a database systems course. My team designed a database system for a bus transportation system, and implemented it as a web application with a login/signup functionality.

Search Engine, *Intelligent Data Processing Course Project*
Coded a Python tool that can parse either a query XML document or a text input, and compare it to a database of XML documents using inverse indexing, and return the best results depending on the cosine similarity between the query and documents.

Virtual Reality Environment, *VR Course Project*
Coded a 3D virtual reality environment for meditation purposes using HTML and A-Frame.

Discord Bot, *Personal Project*
Coded a discord bot using Python and the Discord API. It is an entertainment bot where users can play games using virtual currency.
