Rana.a.dbouk@gmail.com

Dear Hiring Team,

As I saw the internship vacancy email regarding this position, I was instantly excited and knew it was the right thing to do, as I believe myself to be a good candidate for this position.

I am Rana Dbouk, a Junior Computer Science student at the Lebanese American University. I am a part of the computer science honors program at LAU, with a cumulative GPA 3.83/4. Programming and program solving embrace my strong personality traits and push me into thinking harder and practicing more. I find the software engineering Internship at your company a perfect opportunity for me to learn more and gain the knowledge that will strengthen my soft skills. I discovered my passion for programming when I stumbled into hard questions that require some thinking, they drove me crazy, and I can never stop without reaching a solution. However, the beautiful feeling I get afterwards makes me feel proud of myself and eager to keep learning and challenging myself with harder problems. To sum up, the opportunity provided at your company will guide me to better discover myself and strengthen my skills while solving real life problems.

Finally, I am enthusiastic about the new experiences and believe that I can assist the team as well as the company's general growth. I eagerly await additional information about the position and thank you for your consideration.

Sincerely,

Rana Dbouk
