Summary

. I am a computer science student that is very driven and eager to learn new things as much as I can, I am also very hardworking and aim in achieving higher goals.

. I currently am a lab assistant that helps students in programming labs such as java and python, and do some freelance tutoring on the side.

. I have very good (objects and data abstraction, and algorithms and data structures skills in java that I build in the past 2 years, and android studio skills where I have designed over 3 apps so far.)

. I have built a website for clothes using java and GUI and 3 android apps so far (a currency exchange app, a calculator app, and a local freelancing app.)

Experience

Programming tutor
