EXPERIENCE

Saint Joseph University, Beirut, Lebanon - *Machine Learning intern*
June 2021 - July 2021

- Worked with a team on the localization of a smart robot using AI.
- Created different supervised models using Scikit-learn and Tensorflow.
- Used a Raspberry Pi to collect the data.
- Used Firestore to store the collected data.

PROJECTS

Polyclinic website
November 2021 - December 2021
Made a website for the management of a polyclinic, where the user can take an appointment and view past doctor descriptions, and where doctors can view their schedule and their patient's profile. This website was implemented using the MERN stack and is also responsive.

Innovation and design thinking project
January 2021 - April 2021
Worked in a Lebanese American team made of students from USJ and Santa Clara University in California to design a COVID-19 tracing app for a company named BrunstelMedizin based in Munich Germany.

Election Program
December 2020
Made an election program using C++ and Qt-creator for graphical interface.

Minesweeper Game
March 2020 – May 2020
Made a minesweeper game with python as part of a project for a course.

EDUCATION

Saint Joseph University, Beirut, Lebanon - *Computer and communication engineering*
September 2018 - June 2023

Ranked first in my class.

LANGUAGES

Arabic : Native • French : Fluent (DELF B2) • English : Fluent

CERTIFICATES

Cisco: CCNA introduction to networks
September 2020 - January 2021
