OVERVIEW

A systematic Programming and Data Analysis Specialist, as well as a Digital Project Management Enthusiast, with over three (3) years of work experience and vast skills in software development to simplify businesses by cleaning, processing, and modeling their data into useful information for companies decision-making.

Dealing with diverse groups of individuals from various backgrounds, my interpersonal experience, and proficiency in interpreting people's needs have contributed to the growth of my social intelligence, making me enthusiastic to assist any respectable company that values continuous improvement, responsibility, and strategic relations.

ACHIEVEMENTS

- (2019 - 2021) Improved my programming abilities in 3 years to the point that I was able to analyze digital projects after consulting with clients and writing the appropriate codes for the front and back end before publishing and to be checked by the clients also get their feedback to make necessary updates and reach the outcome.

- (2020) Handled the development of the EIS (Efficient Inventory System), and standardization of procedures using my advanced software development skills, which simplified the entire inventory process of different warehouses across Lebanon in the public sector.

WORK EXPERIENCE

PUBLIC SECTOR

04/2018– Present

Programmer (Software Developer)

Beirut, Lebanon

- Collaborating with computer analysts and other engineers to design desktop applications using C# and .Net Framework
- Testing, debugging, and developing public-sector software, and sometimes partnering with product and design teams
- Creating software systems by applying scientific analysis and mathematical methods to forecast and calculate results and design implications
- Consulting with various departments on project status and plans, as well as conferring with project managers to gather input on shortcomings or capabilities, and collaborating with them on technical issues
- Directing system testing and validation processes, as well as software creation and documentation

- Analyzing information to propose and plan the implementation of new programs or changes to current systems, as well as planning updates on programming project specifications, activities, and status

FREELANCE
Programmer (Website Developer)

01/2020 – Present
Beirut, Lebanon

Key Projects Handled

- Websites Development: royalmarket.app (Laravel, Html and CSS)/ lebanonstories.com (Wordpress) / baronbottle.com (Wordpress) / localhostcy.com (Wordpress) / itnetleb.com (Wordpress)
- Desktop Applications for groceries
- Inventory Software (Framework: .NET / Language: C-sharp / Design: WPF / Dev Express: 17.5 controller / Database: SQL)
- Medical Tracking Software and Maintenance Tracking Software (Framework: .NET / Language: C-sharp / Design: WPF / Dev Express: 17.5 controller / Database: SQL)

ARTS, SCIENCES AND TECHNOLOGY UNIVERSITY (AUL)
Computer Lab Tutor

03/2017 – Present
Beirut, Lebanon

- Instructed students in the computer lab on:
 - Programming using C++ and SQL Database so that they can be able to manage data held in a relational database management system.
 - Software Engineering Lab so that they can analyze user needs, design, construct and test end user application.
 - Networking Lab where students can understand more how environment is divided into networks, and how to build them.
- Monitored student activities in the computer lab to ensure a healthy and conducive learning environment.

ARTS, SCIENCES AND TECHNOLOGY UNIVERSITY (AUL)
Assistant Computer Science Department

10/2016 – 04/2018
Beirut, Lebanon

- Provided students information and guidance on computer science and educational issues, as well as assistance with timetables and schedules, university adjustment, and study skills

EDUCATION	Arts, Sciences and Technology University (AUL)	2019
	Master's degree, Computer and communication engineer	Lebanon
	Arts, Sciences and Technology University (AUL)	2017
	Bachelor's degree, Computer and communication engineer	Lebanon

MEMBERSHIP - Member of the Order of Engineers and Architects in Beirut

INTERESTS Keen to attend seminars that will continuously help me grow in the field, as well as keeping myself up-to-date on the new developments in programming, applications automation, and digital project management that are pertinent to my scope of work.

CERTIFICATES - How To Create Your Perfect Mobile App? (CubicWin Lebanon)
- Get To Know Microsoft PowerBI (CubicWin Lebanon)
- Programming With Python (Arab Open University & Lebanese Army Forces)

SKILLS High level of accuracy, organization skills, interpersonal communication, teaching, customer service, scheduling, numeracy, persuasion, public relations, analytical skills, decision-making, active listening, time management, task management, problem-solving, Microsoft office, Java, C++, C#, php, HTML 5, WPF, SQL, Oracle Database.

LANGUAGES Arabic (*Native Language*), English (*Professional Working Proficiency*)
