PROFESSIONAL EXPERIENCE

Full Stack Developer

Passion lb Company | Aug 2023 - Present

- My expertise on the front end includes proficiency in HTML, CSS, and JavaScript, as well as experience with popular frameworks such as React and Next. I'm passionate about crafting intuitive and user-friendly interfaces, ensuring that the end-user experience is exceptional.
- On the back end, I excel in building and optimizing server-side components using languages like Node.js, Express.js and Nest.js. I have experience with various databases, including MySQL, MongoDB, and PostgreSQL, and can design efficient database schemas to support application functionality.

Full Stack Developer

Pro-Solutions | Sep 2022 -Apr 2023

- Design and establish user-friendly websites, including optimized check-out page
- Establish an interactive and dynamic website that guarantees high traffic, page views, and maximum user experience
- Implemented a Responsive Design that allowed the application to be used on various devices with the same user experience
- My commitment to clean, maintainable code and a thorough understanding of web
- development best practices ensures that my projects are not only functional but also
- scalable and easily maintainable. I thrive in dynamic environments, adapt quickly to emerging technologies, and stay updated with industry trends to deliver cutting-edge solutions

Full Stack Developer

Freelance | Mar 2021 - Sep 2022

- My expertise includes a strong foundation in front-end technologies such as HTML, CSS, JavaScript, and various frameworks: "React.js & Next.js", allowing me to create responsive, user-friendly interfaces. On the back end, I'm adept in server-side scripting, databases, and server management, with a focus on languages like Node.js, Express.js, Nest.js and databases like MySQL, MongoDB, and PostgreSQL
