## PROFILE

I am a highly motivated Computer Science graduate from Lebanese University, looking to secure a graduate position that enables me to use and develop my analytical, attention to detail and communication skills. I have gained relevant experience in both scientific and business fields through out my internships, which allowed me to build on my problem solving, concentration and team working skills. My career goal is to secure a position in the field of my study to enhance my theoretical knowledge, utilize my academic skills, and deliver the best performance in the field.
