courses

Profile

A recent computer science graduate with experience working across full-stack web and mobile development. Looking for a role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

Experience

Full Stack Developer , Facila

Aug 2022 – Present Bar Elias

- Developed and maintained one front-end mobile application focused on user experience using flutter and dart.
- Wrote clean front-end code, back-end code, and integrated with Dot net core framework and APIs.
- Remained up to date with industry standard technologies.

Full Stack Web Development , Freelancer

Jan 2022 – May 2022

Developed a moodle website for Tyoyoor Al Amal school in Tripoli. This software helps the directors to see students who are registered, students' grades, and student payments.

- Relevant technologies: HTML/CSS, Bootstrap, JavaScript, PHP, SQL,

Education

American University of Beirut, BS in Computer Science

Sep 2019 – May 2022 Beirut

Computer science- USAID Full Scholarship

- **Relevant Courses:** Software Engineering, Web Development, Database Management, Software Architecture, Advanced Algorithms, Data Science, Machine Learning, and Data Structures.

Projects

ISTISHARA

Led a team in the development of a cross-native mobile application using Flutter, Firebase, Dart and Agora. Conducted and managed weekly and bi-weekly agile sprints. The application connects experts with everyday users, providing them with easy access to tailored consultations and solutions.

Cash&Carry

Led a team in the development of an MVC website using HTML, BOOTSTRAP, CSS, JS, dot Net framework, and MySQL. Cash&Carry is a responsive web application that allow market owners to sell their items through our software. It's aim is to facilitate customers life through paying and taking his needed items.
