Overview

Web Developer in training

Aspiring to be a web developer. I enjoy using my skills and wish to learn and gain more experience in creating websites. I'm interested in making more eye pleasing designs, learning simple animation, and beautifying web pages by making them more responsive and consumer friendly.

EDUCATION

Lebanese University, Beirut — 3rd Year

OCTOBER 2015 - OCTOBER 2018

Work Experience

Toxic Gaming Lounge - Internet Cafe(2018-2020)

In charge of inventory management, troubleshooting video game settings, cashier.

Harkous Foods - Restaurant (2020-2022)

Joker in all positions: Cashier, waiter, runner, kitchen staff.

Projects:

Project-1:(react-js) training how to use components, displaying several items, filtering them out according to prices, search bar functionality

Project-2:(BLOGPOST react-js)

A blogpost, has a Login and a Signup screen, has a basic feed of posts with hard-coded data (author, post ID, body, likes), having several functionalities such as filter by ID, filter by likes, search bar using ID, log out, add a post..

For further info, i can add my GitHub repositories
