## Dear Hiring Manager,

The cybersecurity field has always been interesting for me, and now I have chosen it to be my career. So, in the last couple of months, I have been developing a plan of selecting the skills and certifications needed to begin my cybersecurity career.

Moreover, the opportunity of an internship with your team will help me enhance my knowledge and experiences in this field. Regarding the job description, I have some experience in documenting processes using BPMN, which is one of the best practices in this domain, in addition to other IT-related certifications.

I would welcome the opportunity to speak with you if you feel I would be a strong candidate for this or any position in your organization.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Ali Ghourani.
