Summary

A versatile and professional computer science graduate with a commitment to and experience of developing innovative and creative software solutions. Able to perform full software development life cycle activities. Well experienced in Full Stack Development, and always willing to learn new frameworks and technologies.

Experience

Software Engineering Intern

Bennett & Ranville • Michigan, USA
07/2022 – 09/2022

Worked as a Front-End Web Developer for a healthcare innovative project's administration website using a CoreUI react template. I used React (Typescript, HTML, and CSS) in addition to axios for integrating REST APIs.

Data Entry Assistant Intern

Irshad & Islah Association • Beirut, Lebanon
04/2022 – 07/2022

Completed 120 hours as a Data Entry Intern at Irshad and Islah Association under the charity work section.

Education

B.S in Computer Science

American University of Beirut • Beirut, Lebanon
05/2023

Some courses taken:

- Software Construction
 - Software Engineering
 - Advanced Algorithms & Data Structures
 - Full Stack Web Development
 - Database Systems
 - Operating Systems
-

Technical Skills

- HTML, CSS, and Bootstrap
 - Programming Languages: JavaScript, TypeScript, Java, Python, C++, and C#
 - React.js and React Native
 - Node.js
 - MySQL
 - MongoDB
 - Git and GitHub
 - Axios
 - REST Apis
 - Express.js
-

Projects

- **Cloasis Website**

Transformed a desktop application into a website in the software engineering course I took. I used Reactjs for frontend development and node.js for the backend development.

- **Prevo Android App**

Collaborated with my partner on an android app called Prevo which aims to help students prepare for their exams in a professional academic manner. We used Java and CSS to code and design the application in Android Studio. After the demanding work, we won the LAU Arts and Sciences Fair First Prize under the category of mobile application development.

- **WhatsApp & Telegram Bots** (using Node.js)
 - **BookSearch Website** (React & Google Apis)
-

Soft Skills

- Communication
 - Problem Solving
 - Critical Thinking
 - Time Management
 - Teamwork
 - Self - Motivation
 - Attention to Detail
 - Persistence and Patience
-

Languages

English and Arabic
