## EDUCATION

### Lebanese International University

Masters degree in Computer and communication engineering  
2019 - 2021

GPA: Outstanding 3.95/4

#### Related Courses:

- Advanced Math
- advanced network
- wireless communication
- Mobile communication
- machine learning
- data mining
- digital signaling
- cryptography
- information security
- digital signaling processing

#### Projects:

- Machine Learning project, training the machine to predict correct output by 95% using supervised and unsupervised learning techniques.
- Cryptography project, SELinux and Fedora
- Thesis project, ISF's Website reestablishment that updated the current static website and enhanced it by 90%

### Lebanese International University

Bachelor degree in communication engineering  
2016 - 2019

GPA: Outstanding 3.9/4

#### Related courses:

- Networking
- Web Applications, Databases and Entities, Android app
- Java, Python
- Arduino, Raspberry pi
- Mathematics, Physics, advanced English

**Projects:**

- Senior project: water pollution detector system that detects the percentage of pollution in water by using an arduino with several sensors connected to it (PH sensor, Co sensor, temperature sensor, and gps) and sends results to a dynamic website with 90% accuracy measurements.
- Simple mobile applications using Android studio like fitness app
- Simple websites, shop and school websites

**Wade Al Azhar High School**

Life Science graduate

2013 - 2016

GPA: 16.3/20

---

**WORK EXPERIENCE****Remote ERP Developer\_InfoSys**

December 2021-present

- Perform Development Tasks e p over ERP, CRM and .Net Custom Applications
- Migrate the Data of the Master Records and Open Balances
