PROFILE

I am a self-taught web developer, experienced in WordPress and front-end development. I learned to search for the problem and the solution by myself. I worked as a freelance developer to build my career and developed websites. My main concern is to have my clients happy, which reflects my work and my passion for it. I am willing to expand my knowledge in the development field by working and training for software companies.

EDUCATION

2017-2020 | Information Technology

ETSTC - Educational Technical School of Tourist and Commercial Sciences
