nourashkar16@gmail.com

Skilled and passionate web developer with a strong foundation in computer science, seeking to apply my technical expertise to build dynamic and responsive web applications that drive business growth and success.

EXPERIENCE

Facila, Beqaa — *Project Manager*

DECEMBER 2022 - PRESENT

Oversee and coordinate projects from start to finish, ensuring that they are completed on time, within budget, and to the satisfaction of all stakeholders.

MdTech Solutions, Dubai — *Full Stack Web Developer*

NOVEMBER 2022 - DECEMBER 2022

Designed and developed user-friendly, responsive websites and web applications, utilizing technologies such as HTML, CSS, JavaScript, and php.

Robogeex Academy, Beqaa —Robotics Trainer

JULY 202 - AUGUST 2022

Train children aged 7-13 years to build a responsive code using blocks and get the output on several toolkits.

EDUCATION

Lebanese International University, Beqaa — *Bachelor*

OCTOBER 2019 - jUNE 2022

Bachelor's of Science in Computer Science with distinction (3.56 GPA).

PROJECTS

Online Shopping Website— *May, 2022*

This website was implemented to show rona bakery's products with their prices and quantities. Customers can sign up then add products to their carts or favorites, after all they will order the products and pay cash on delivery. The website is coded using html, css, javascript and php.

SKILLS

HTML, HTML5, CSS, CSS3.

JavaScript, php.

Python, C++,C, Java.

Microsoft Visual Studio, Microsoft SQL Server, Android Studio, Xampp .

Responsive design, web design.

CERTIFICATES

Introduction to Backend Development – Coursera

Introduction to Frontend Development – Coursera

Internet of Things – LIU RoboTech Club

Robotics ToT – RoboGeex Academy

Computer Networks – Cisco Networking Academy

Robotics – DOT Lebanon

Introduction to Networking – Cisco Networking Academy

LANGUAGES

English, Arabic

Coffee Shop Website— *March, 2022*

This website included the menu of a coffee shop, each product with its photo and price. Moreover, customers were able to book a table and order a product online.

Dental Clinic System — *April, 2021*

This project is neither a website nor an application. In this project I designed the software requirements of a dental clinic by implementing the required diagrams, functional requirements and stakeholders of the system.
