- Proficient in Android app development using Kotlin and Java SE
- Experience with version control using Git, including branching, merging, and pull requests
- Familiarity with continuous integration and deployment (CI/CD) processes
- Knowledge of containerization using Docker, including creating and managing images
- Familiarity with SQL databases and querying

### EDUCATION

Bachelor's in Computer Science  
Lebanese University

2018 - 2021

### LANGUAGES

Arabic  
English  
French

### PROFILE

As an Android developer with a year of industry experience, I am deeply passionate about creating innovative mobile applications that meet the needs of today's users. I am skilled in developing and testing Android applications and have a strong knowledge of programming languages such as Java and Kotlin. I am also experienced in using development tools such as Android Studio and have a strong understanding of the Android SDK. With a commitment to staying up to date with the latest trends and technologies in the industry, I am excited to continue building my skills and contributing to the development of cutting-edge Android applications.

### WORK EXPERIENCE

#### Android Developer

Monty Mobile

Sep 2022 - Present

- Developed and maintained Android applications for Monty Mobile's clients, ensuring they met high standards of quality, performance, and user experience.
- Implemented best practices for software development, including version control, code reviews, testing, and documentation.
- Troubleshoot and debugged issues in existing applications, identifying root causes and implementing solutions.
- Stayed up to date with the latest trends and advancements in Android development, and recommended improvements and optimizations to existing applications.
- Contributed to the planning and estimation of new projects, providing insights and recommendations based on past experience and technical expertise.
- Participated in agile development practices, including daily stand-up meetings, sprint planning, and retrospective meetings.
- Communicated effectively with project managers to ensure timely delivery of projects and alignment with business goals.
- Configured pipelines to run unit tests, integration tests, and UI tests, as well as perform static code analysis and generate reports (SonarQube).

#### Junior Android Developer

Toothpick

May 2022 - Aug 2022

- Executed maintenance procedures (user interface, errors with inputs, debugging) apps after application completion.
- Performed testing on the android emulator and physical devices.
- Built device compatibility with android version 5.0 (API 21) to present (API 32).
- Implemented robust app architectures and complex user interfaces.
- Communicated with delivery leads, designers, QA, and other developers as part of a team.
- Worked with the manager of Mobile Development to provide estimates and status updates.
- Worked closely with API developers to provide data to the apps via RESTful APIs w/JSON.
