[Saadnour753@gmail.com](mailto:Saadnour753@gmail.com) • [LinkedIn](#) : [Nour Saad](#)

Recent University graduate in Computer Science from Beirut Arab University. Seeking a job or internship in software engineering. I have built experience in developing native android mobile application during my degree. I am open to learn new technologies and develop my skills in this vast sector to build up my career taking it to higher levels.

## EDUCATION

2018-2022

**DEGREE IN COMPUTER SCIENCE,**  
BEIRUT ARAB UNIVERSITY  
DEBBIEH, LEBANON

2018

**TECHNICAL BACCALAUREATE IN INFORMATION TECHNOLOGY,**  
CIS COLLEGE  
SAIDA, LEBANON

## PROJECT EXPERIENCE

- CovidAlert Android Mobile App Project  
Built as my senior project. Main features of the application are to provide guidance, news, statistics and spread awareness on Covid-19 pandemic from symptoms to precautions to help avoiding and countering this crisis.  
(Note: For testing download app using QrCode using android device. App require Lebanese number to login, if not available use 00000000 as number and 000000 as pin)  
CovidAlert Download Link:

- M-File Android Mobile App Project  
Build as project for Android Development Course. Main features of the application are to add medical information of patient to a medical form than saving it to storage as pdf file, also the ability to read all pdf files available in storage within the app to help medical staff in the organization of their medical records.
