EXPERIENCE

JULY 2022 – SEPTEMBER 2022

SOFTWARE UNIT TESTER, CARDINAL HEALTH WAVEMARK

I worked as an intern for Cardinal Health Wavemark for two months. I worked in a team of three other interns and a supervisor to unit test the code of a Point-of-Use system the company has deployed in their client hospitals. I also did a presentation about software-testing principles and cost-benefit analyses regarding code coverage percentages.

JUNE 2021 – AUGUST 2021

SDITP SOFTWARE DEVELOPER TRAINING PROGRAM, SCHEMAZONE

I took part in the SDITP software developer training program organized by Schemazone, a software company located in Toronto, Canada. For two months, I gained experience as a web developer learning about the principles about web development in addition to gaining coding experience.

EDUCATION

SEPTEMBER 2018 - PRESENT

BACHELOR OF ENGINEERING IN COMPUTER ENGINEERING, LEBANESE AMERICAN UNIVERSITY

I was awarded the Merit scholarship upon entry that excluded me from paying tuition. I also won the Essay Writing competition at the LAU Arts and Sciences Fair in 2017.

SKILLS

- Competent in HTML, Javascript, VueJS, Java, and Python
- Familiar with SCRUM and DevOps software production plans
- Familiar with SQL and document database management systems such as MongoDB
- Familiar with Microsoft Power BI and data science principles
- Familiar with neural networks and machine learning principles
- Quick learner and a flexible worker

ACTIVITIES

I spent five years as an AGBU-AYA scout from 2013 to 2018 and two years from 2019 to 2021 as an AGBU-AYA rover in the Antranik Antelias Scouts Movement. I also went on an 18-day trip to Armenia with the Discover Armenia program in 2015 sponsored by the AGBU, where I partook in the rebuilding of a fallen house, among other activities.
