Qualities

- Curious
- Creative
- Reactive
- Work under pressure.
- Team player.

Languages

Arabic.

French (B2).

English.

Hobbies

Travel.

Painting.

I am a 4th year engineering student in architecture, systems and software course. I am naturally very curious, and I love to learn new things. Having been passionate about computers from a young age, I want to work in this field while respecting the environment to hone my skills and be in line with my convictions.
