Personal Statement

Hard working, good time keeper, and a team player. When its time to work, I make my time only for work unless there_an emergency. I really like to complete my work on time and try to be very efficient in my work. I believe working in teams makes better work. since more people means different mindsets and different innovative ideas which make the work better and nicer with a wide variety.

Maintaining and modifying equipment to ensure that it is safe, reliable and efficient.

I am currently a 4th year mechanical engineering student.
