FullStack developer with 1 year experience in developing and building responsive websites. Skilled in Html, CSS, JavaScript, Sass, JQuery, MySQL, Bootstrap, Webpack, PHP, Laravel. I have passion to coding.

I am an ambitious person who thirsts for more learning in order to develop my skills and share them with others.

I have a good background in web development.

I have worked on developing many projects throughout my university career and through taking online courses from international academies like: "Hasoub", "Udacity", and "Udemy".
