GROUP PROJECTS

Investment evaluation project

- In the university with a team group project we did an equity evaluation for a company where by we calculate it's cost of debt and market value of debt , cost of equity . WACC calculations , beta levered and unlevered and a DCF valuations etc.

Information management system project

- In this project we also worked in a group of 5 where we did an interview with the IT manager of the the company whereby we asked him goal , mission , competitive approach of the company . we also determined the key business process and it's element we discuss about the information system of the company and the problems found in it and ways to solve theses problems.

International financial management project

In this project we did a research paper about a webinar online session presented by DR. haraki discussing about the economic crisis that happened in 2019 in lebanon and what are the crisis drivers and how they are related to each other , how this crisis affect people financially and the urgent to implement a credible, comprehensive, equitable, macro financial stabilization strategy to rescue lebanon
