Education

B.S. Management Information Systems
La Sagesse University

09/2018 - 06/2022   *GPA 3.32*

Relevant Courses

- Programming
- Web Development
- Mobile Application
- Database Design & Administration
- Networking & Telecommunications
- Systems Analysis & Design

Personal Projects

HTML/CSS Cinema Website
- Developed and designed a cinema website that displays the currently showing and soon coming films using HTML/CSS.
- Using myphpadmin, admins are able to edit the list of content using a user-friendly interface that updates the database directly.
- The website also allows users to create an account and login, select the film, experience, and number of tickets that they want, and shows them their total bill.

React Native Mobile Application
- Designed and implemented a mobile application using React Native and NodeJS.
- Using Firebase, users are allowed to easily create an account and login. Navigate between pages such as Home, Profile, and Contacts. And make a phone call to a number.

Skills

HTML5/CSS   PHP   Javascript   ReactJS
