

MAZEN ABDULFATTAH

mazen.abdelfatah148@gmail.com

Beirut, Lebanon

SUMMARY

Dedicated and passionate student of computer science with strong foundation in JavaScript, React Js, C# and PHP development. Possesses a solid understanding of software development principles and strong problem-solving skills. Quick learner, eager to contribute to innovative projects in a dynamic environment. I'm excited to tackle new challenges and bring creative solutions to life. My skills include foundational programming, debugging, and a commitment to continuous learning.

PROJECTS

BLOOD-BANK AND DONATION MANAGEMENT SYSTEM using PHP

Developed a comprehensive system designed to streamline the management of blood donations and blood bank operations.

The system facilitates efficient tracking of blood donations, donor information, inventory management, reporting, admin dashboard, and the blood banks in Lebanon using google maps coordinates.

Tic-Tac-Toe using React.js

Designed and developed an interactive Tic-Tac-Toe game using React.js, implementing game logic and responsive UI.

Practiced state management and component-based architecture to create an engaging user experience. Strengthened React skills, including hooks and functional components, while enhancing problem-solving abilities.
