To whom it may concern,
I was excited to know that I have the opportunity to apply as a Graphic Design Intern in your company. I am passionate about creating visually stunning designs that help brands grow. I am currently a senior graphic designer in the Lebanese American University in Beirut, Lebanon, and I have developed skills and attributes that are essential in Graphic Design. I expertise with Indesign, Photoshop, Illustrator and Procreate too. I am skillful with social media and how to run an account. I love collaborating with people and colleagues, and I'm excited to help and learn deliver designs that will help with engaging and growing your target market.

During my studies, I completed some free-lance work that allowed me to improve my professional skills such as:

- Designing layouts and developing styles for social media layouts.
- Listening to client's needs and requests.
- Created logos, brochures and poster designs.

Attached is the link to my digital portfolio: www.Behance.com/farahawada.
If given this great opportunity, I would love to help and learn design graphics and develop ideas that will exceed in your company's expectations. I'm looking forward to bringing my creativity, teamwork, and branding skills into this experience. Thank you for your consideration.
