Issa Farhat

Software Engineer

03736721 | issa2002farhat@gmail.com | Lebanon-Aramoun

Education

Bachelor Degree in Computer Science - Lebanese University (Hadath)   [2019—Present]

Summary

Driven and hardworking computer science student with a passion for AI, seeking an internship in this domain to learn and grow my skill set.

Relevant Projects

- **OCR program that allows user to screenshot any part of their screen, then uses openCV with Tesseract API to extract text from the image and saves the extracted text to the clipboard**
- **Tic-Tac-Toe AI that plays tic-tac-toe optimally and never loses**
- **Minesweeper AI that plays minesweeper perfectly**

Achievements and Certificates

Got the top place in robotics Arduino competition using C++:

- Collaborated with my team to reach the top spot in our school's robotic wrestling competition by developing the algorithms of our robot using C++.

Successfully finished all the problem sets in Harvard's CS50 course, primarily using the C language.

Successfully completed the Huawei HCAI course related to AI,ML, and DL, and earned the certification (offered by our university in partnership with Huawei).

Technical Expertise

Expert: Python
Intermediate: C, C++, Linux
Learning: Tensorflow, openCV

Interests

Sports, reading, technology, psychology, astronomy and physics
