-

AUG/2018

EXPERIENCE

IT and Software Development Intern - Midis Group - Head Office

AUG/2024

Cloud Infrastructure: Contributed to cloud migration projects, gaining hands-on experience in troubleshooting and managing cloud infrastructure.

Machine Learning & Software Development: Developed machine learning models and contributed to full-stack development using C# and ASP.NET for web and console applications.

Artificial intelligence Bootcamp - ZAKA.AI

During the AI Bootcamp, I gained comprehensive and hands-on experience in several key areas of artificial intelligence through hands-on projects, including natural language processing (NLP), data analysis, deep learning, and machine learning. This immersive program provided me with the opportunity to develop a strong foundation in AI concepts and practical skills.

PROJECTS

Costumer data analysis

Developed a Machine Learning Model to explore the significance of customer data analysis, its impact on businesses, and how it can revolutionize decision-making processes. These interactions generate vast amounts of data,The challenge is to translate these interactions into actionable intelligence that guides our strategies.

Skills

- Machine learning
- Deep learning
- Data analysis
- NLP
- Time Series Analysis
- Python Programming
- Analytical Thinking
- Teamwork
- Critical Thinking
- Problem Solving

EXTRA-CURRUCULAR ACTIVITIES

Basketball training at CNDL. TaekwondoatCNDL : silvermedalatSacre
Coeur Gemmayze inter-schools taekwondo tournamennt.

Football training with Ajax Amsterdam Academy: summer camp top scorer.
