EDUCATION

Lebanese University, Beirut, Lebanon — *Bachelor of Computer Science*

SEPTEMBER 2010 - JULY 2014

EXPERIENCE & TRAINING

Central Administration of Statistics, Hadat — *Investigator*

JUNE 2015 – Present

- Surveyed around 200 families for the Labour Force and Household Living Conditions Surveys (2018–2019).
- Collected data monthly for the Customer Price Index (CPI) (2016 –Present).

***. Technology sarl, Sanayeh** — *Trainee as Full Stack Developer*

JUNE 2014 - AUGUST 2014

- Updated ongoing projects with new features and pages.
- Handled clients' and designers' requirements.

PROJECTS

Facebook Clone — *Social media Website*

A website where users can edit their profiles, search, add friends, block other users and view notifications. The website was implemented using Bootstrap and JavaScript for the frontend, PHP for the backend, and MySQL for the database.

E-Com — *E-Commerce Website*

A website where users can register as customers or shop owners. The shop owner can create a store, add and remove products. The customer can purchase products from different stores and add them to cart. The website was implemented using HTML, CSS and Bootstrap for the frontend, PHP for the backend, and MySQL for the database.

PROFILE

As a compassionate, value-driven, and innovative computer science graduate, I am keen on changing people's lives through technology. I use my love of learning to grow, my communication skills to ensure the team's success and my commitment to exceed collective and individual targets.
