

Ali Mzayhem

•Phone Number: +96176722925 • Email: alymzayhem@gmail.com •Location: Hadath, Mount Lebanon

PROFESSIONAL SUMMARY:

Strong multitasker with proficiency in performing effectively in a high-pressure work environment. Seeking a position with an ABC company that allows innovative design, problem- solving and utilizing my skills effectively.

EXPERIENCE:

Jul '22 – Sep '22 **Mobile Arts Company**

Mobile Developer (Internship)

- Collaborate with the marketing team to understand their mobile app concepts and requirements
- Testing and debugging mobile apps to ensure their functionality, performance, and user experience.
- Deploying mobile apps to app stores
- Producing clean, maintainable and efficient code for mobile apps
- Design and developing mobile apps using C# and Xamarin technologies

Oct '22 – Present **Remotely**

Freelance UI/UX Designer & Shopify Expert

- Collaborating with clients to understand their design preferences
- Developing custom Shopify themes and templates
- Designing user interfaces that are visually appealing and user friendly.
- Creating wireframes and mockups using Figma
- Collaborating with back-end developers for front-end and back-end integration

EDUCATION:

Sep '20 – Sep '23 **BS in Computer Science / Lebanese University, Lebanon**

- **Key courses:** Imperative Programming, Data Structure and Algorithms, Web Development (1) & (2) , Database Management Systems (1) & (2), Computer Networks(1) & (2), Software Engineering, Project Management

PROJECTS:

- **E-Donate Platform:** A HTML/CSS/PHP web platform designed to support the people of Lebanon during the current economic crisis, it facilitates financial donations and equipment/supply donations directly to those in need
- **Xamarin Translation App:** A cross platform mobile application developed using C# that provides intuitive text and speech translations for users. Supports translation in 70 languages
- **ATM System:** The ATM system was developed using Java programming language and MySQL database, featuring password authentication, data encryption, and transaction history tracking. The user interface was designed using JavaFX for a seamless and user-friendly experience. The project provided practical experience in software development and system design.
- **Several Figma Designs:** I used Figma to create wireframes, mockups and high fidelity designs for multiple websites and mobile applications with full prototyping.

CERTIFICATIONS:

October ' 2021	CAE Cambridge University English Certification
August ' 2022	Shopify Partnership Program

LANGUAGES:
