

Hadi Faour

web developer

 Hadath, Lebanon

70/645382

Hadi faour , student and seeking for my Master in telecommunication and network engineering
emphasised in software and networking engineering. Throughout my course study i was always
motivated for the topic related to software development and developing my own algorithm in order to accomplish the course task project. Technically ,I consider any project as a new challenge for me to build my student portfolio. I encourage you to review my resume, and to contact me either by email or by phone
