Experience

Coding Instructor for kids at Brightchamps: (May 2023)

I am a coding instructor at Bright Champs, where I teach students how to code and help them develop creativity and problem-solving skills. In this role, I have gained experience in teaching techniques and communication skills.

Fitness Website (Freelance Project): (Feb 2023)

I developed a responsive website for a fitness gym with an attractive design and interactive features like class varieties, personal training services. It helps the gym attract new customers and promote their services effectively.

Hardware Computer Store/ Customer Services: (Aug 2022)

I gained valuable experience in customer service, technical knowledge, sales, teamwork, and inventory management during my 5-month internship at a computer hardware store.

Senior Project/ Website: (May 2022)

I built a full-stack website with a database for my father's business, Raad SRS, a stone crafting and construction company. The website allows customers to place orders and view project progress. I used HTML, CSS, JavaScript, and PHP. This project enhanced my full-stack development skills and helped my father's business in the following ways: • increase customer engagement • Improve brand awareness • Increase credibility.
