## EXPERIENCE

### Al Salem Group

10/2023 - 11/2023

#### Data Science Internship

- The main project for the data science internship is the Labor Market Observatory (LMO).
- The primary responsibilities involve data collection, data cleaning, data analysis, and visualization

### CodSoft

07/2023 - 09/2023

#### Data Science Internship

- Gained expertise in data collection, processing, and interpretation, facilitating astute business decision-making during the internship.
- Engaged in diverse projects (Titanic Survival Prediction, Sales Analysis Prediction) encompassing data purification, statistical analysis and visualization.

### IDS (Integrated Digital Systems)

01/2023 - 04/2023

#### Web Development Internship (Backend).

- Role: During my internship at IDS, my primary role was to work on backend web development, which involves handling the server-side aspects of web applications.
- Technologies: I have gained experience in using various backend technologies, such as programming languages ( Node.js, html, css), databases ( MySQL), and server frameworks (Django).

## SKILLS

#### Specification Skills :

- Data Collection and Cleansing
- Data Visualization (Power Bi, Tableau)
- Python (Pandas, Numpy, Seaborn, Matplotlib)
- SQL (MySQL, SQLServer)
- Machine Learning
- Supervised and Unsupervised learning
- Clustering, Classification, Regression,Decision Trees
- Excel (XLookup, VLookup, Conditional Formatting, Pivot Tables, Dashboards)
- Excellent Communication Skills
- Strong Multitasking Skills
- Commitment to Continuous Learning

#### Portfolio Website

## CERTIFICATIONS

-SQL Course | LinkedIn Learning website

2019/2023

-Advanced Web Design and Development Training| RCC Software and Technology Organization

-Buisness Analysis Course | Lebanese University

-Machine Learning| Lebanese Univeraity

## EDUCATION

### Lebanese University

2020 - 2023

#### Data Science. .

"Data Science Major with expertise in data analysis, statistical modelling , and programming. Proficient in extracting insights from complex datasets, and skilled in driving data-driven decision-making. Equipped to contribute to innovative solutions in various industries."
