

OBJECTIVE:

Adaptable and innovative computer and telecommunication networks engineer with 5+ year experience in different fields including: server-side / client-side web developer, IT hardware/software support technician and dealer. Looking to leverage my knowledge and experience as a full-time employee.

PROFESSIONAL EXPERIENCE:**Software Developer – IC Tech****Feb 2020 → April 2024**

- Collaborate with other developers and engineers to design, build, and maintain applications.
- Build applications for various platforms using common frameworks, including .Net.
- Write and debug code.
- Troubleshoot software issues.
- Provide on-call support as necessary.
- Oversee diverse, cohesive teams for high-quality delivery to clients.
- Design, develop, test, and enhance software solutions.
- Build client-focused, next-generation web applications.

Web Developer - Emkan**March 2018 → Jan 2020**

- Building a real-time web application based on .Net core 3.1.
- Gained massive frontend skills in HTML5, Bootstrap V5, JavaScript (ES6).
- Solid understanding of the structure and basic fundamentals of ASP.NET Core and .NET Core 6 Razor pages.
- Role management in ASP .NET Core identity and stripe payment integrations.
- Making CRUD operations on models.
- Razor class library interaction for identity.
- Entity framework integration along with code first migrations.
- Authentication and authorization in ASP .NET Core.
- Google and Facebook authentication/login.
- Seeding database migrations automatically.
- Accessing database using repository pattern.
- Creating C#.NET solutions for the enterprise.
- Using the .NET framework to develop internal apps.
- Debugging and organizing written code.
- Defining and maintaining projects on an ongoing basis.
- Reporting and resolving difficulties with .NET projects.
- Finding and dealing with technological risks and concerns.
- Working on a project team with other developers.
- Create and maintain efficient, reusable, and dependable C# code.

TRAINING EXPERIENCE:

Web Developer - IDS – Jnah August 2019 → October 2019

- Create a unique portfolio website.
- Complete web page development including a user registration page and a contact us page.
- Front-end web development using HTML, CSS5, JavaScript and JQuery.
- Server-side web programming using ASP.Net and ASP.NET MVC.
- Entity data model creation with database first approach using MS SQL server.
- Usage of entity framework to relate to the database entities.

IT technician - Laptop – Saida June 2019 → September 2019

- Perform management and maintenance of windows operating systems.
- Setting up and configuring software and applications on PCs.
- Configure and manage laptops devices.
- Install and share printers to meet requirements.
- Troubleshoot advanced hardware and software problems.
- Check and maintain desktop computers hardware.

EDUCATION:

- **Aug 2023 - Online Course with Instructor Ahmad Moussawi**
Building a real web application using Angular.
- **November 2019 - SE Factory**
Foundation of computer science course.
- **May 2019 - Lebanese University Faculty of Technology**
Bachelor in Telecommunication Engineer.
- **March 2018 - Lebanese University Faculty of Technology**
Arduino workshop certificate.
- **August 2017 - Beirut Arab University**
Cisco IT essentials certificate.

TECHNICAL SKILLS:

- IT Support: Software installation, hardware setup, upgrading hardware and software, resolving technical errors.
- Packet tracer skills: Network topologies creation, configuration of Cisco routers and switches using simulated command line interface.
- Very good knowledge in algorithms and data structures.
- Proficiency in problem solving exercises using C# (codewars/ edabit platforms).
- Front End Programming: HTML, CSS, Bootstrap, JavaScript, and Angular framework.

- Back End Programming: C#, ASP.Net Framework & ASP.Net MVC, .Net Core Framework & .Net Core MVC.
- Familiar with: Python and PHP.
- Database programming using: Microsoft access, MySQL, Microsoft SQL Server management studio.
- Network system programming in C language: Sockets, Pipes and Named Pipes, Shared Memory and Signals.

SOFT SKILLS:

- Strong organizational skills
- Good interpersonal skills
- Confident under stressful conditions
- Function effectively with no supervision
- Good attitude and strong work ethics
- Good written and verbal communication skills.
- Good at working in a group
- Good communicator and team player
- Excellent knowledge of Microsoft Office Suite (Word, Excel, Project MS, Outlook, Visio, etc..).
- Negotiation skills.
- Critical thinking.
