## SUMMARY

As a highly motivated and responsive web developer with one year of experience, my goal is to continuously improve my skills and expertise to deliver high-quality results. Strong communication skills, team player with expertise in Angular, frontend development, and responsive design. Seeking to join a dynamic team where I can utilize my skills to help drive the success of the organization.

## EXPERIENCE

### Frontend Developer

08/2021 - 04/2022

#### Freelance

Remote

- Collaborated with a French PhD student at Télécom SudParis, and used GitHub for version control.
- Designed a web application that allow users to input an XML file or create their own, then calculates a metric called RORI.
- Implemented the calculation algorithm as well as other functionalities using JavaScript.
- Utilized the Plotly.js library to visualize data from an Excel file in a 3D coordinate system.
- Developed a responsive design using the Bootstrap CSS framework.

### Full Stack Developer

09/2020 - 12/2020

#### LYST Technologies

Beirut

- Developed backend REST services using Java Spring Boot for clients in the banking sector, ensuring high performance and scalability.
- Built interactive web pages using Angular and Ionic frameworks, adhering to best practices for user experience and mobile responsiveness.
- Ensured smooth integration with frontend technologies by debugging and testing REST services using Postman and Chrome Dev Tools.
- Demonstrated strong problem-solving and analytical skills to deliver well-designed, testable, and efficient code committed to SVN.

## PROJECTS

### Angular Video Game Database

2022

Developed a web application using Angular 13. It uses a public API to create a game database website. It displays the first few items of the server response and offers the ability to sort. It also allows the user to search for a specific game.

### JPEG Image Compressor

2021

Developed a Python program to compress raw images based on the JPEG image compression algorithm.

### Recruitment Website

2019

As part of my graduation project, I developed a recruitment website that helps job seekers find careers using HTML5, CSS3 and PHP programming languages.

## SKILLS

Angular · HTML · CSS · JavaScript ·

Responsive web design ·

Bootstrap · Java · OOP ·

Data Structures · GitHub ·

Version Control · Python · MySQL ·

Spring Boot · C++

## STRENGTHS

### ★ Team Collaboration

Collaborated with team members to develop and launch new features.

### 📖 Problem Solving

Identified and resolved complex technical issues.

## EDUCATION

### Masters of Science in Computer and Communication Engineering

Lebanese International University

09/2019 - 10/2021 Lebanon

### Bachelor of Science in Computer Engineering

Lebanese International University

10/2016 - 05/2019 Lebanon
