Personal statement

A qualified and enthusiastic communication engineer student, interested in learning always new things, looking for a future position that can utilize my skills and knowledge and also help me to further develop these skills in a practical environment in order to take a step in my career.

My eventual goal is to assume responsibility for finishing my year of graduate, thus can actively contribute to the overall success of any business I work for.

Academic Qualification:

- LIU University (2015 – 2020) (Fifth year) (Master degree in communication engineering)

Key Skills gained:

- Proficiency in all areas of communication engineering programs, including java, android apps, php, cisco ,python
- Ability to handle, analyze and interpret complex data, before presenting it back based on the overall analysis made.
- Advanced problem solving and numeracy skills.
- Accomplished communication skills, both written and verbal, developed through numerous essays and presentations.
- Proficiency in all areas of Microsoft Office, including Access, Excel, Word and PowerPoint.

- Tanoukhieh national school (2000 – 2014)
Bachelor in General Sciences

Hobbies & Interests

I am interested in playing music, drawing and painting. Also, I got some learning session including this field and during this period I improved my own skill and was able to do many handmade art works. Also, I'd like to fix any corrupted electrical device.
I also like writing poems.
