Education

Master in Information Systems and Technology — [Kuban State University - Faculty of Physics and Technology](#) Krasnodar - Russia
From September 2020 to June 2022
Graduated with honor

Preparatory year — [Kuban State Technological University - Faculty of Technology](#) Krasnodar - Russia
From September 2019 to June 2020

Bachelor in Computer Networks and Telecommunications Engineering — [Lebanese University - Faculty of Technology](#) Saida - Lebanon
From September 2014 to February 2019

Work experience

IT Technical Consultant — [Ogero](#) Beirut - Lebanon
Since August 2022
Developing and implementing target operating / service delivery models, executing cost reduction programmes and optimising business processes

Application developer - Training — [Kuban State University](#) Krasnodar - Russia
From March 2021 to June 2021
Development of a website for the university using the .NET (MVC Framework) and SQL Server.

Computer Network System Engineer - Training — [Lebanese University](#) Saida - Lebanon
From July 2018 to November 2018
During this experience, my work mainly focused on networking and computer maintenance.

IOS Application Developer - Training — [Torch s.a.l.](#) Beirut - Lebanon
From July 2018 to October 2018
It was an opportunity to understand the work in the field of mobile application development. I learned to bridge the gap between theoretical training and concrete technical expertise. Accelerate the development of technical coding skills through mentoring and coaching and allow my ideas to develop and transform them into IT products.

Telecom Engineer - Training — [Rafic El Hariri Airport](#) Beirut - Lebanon
From June 2016 to September 2016
The work covered the basics of the following: RADAR, INSTRUMENT LANDING SYSTEMS (ILS), OMNIDIRECTIONAL VHF DOPPLER RANGE (DVOR), DISTANCE MEASURING DEVICE (DME), VOICE COMMUNICATION SYSTEM (VCS), DATA AND VOICE RECORDING.

Projects

End of Master's studies project — [Kuban State University](#) Krasnodar - Russia
From December 2021 to May 2022
Development of an electronic textbook of the fields of mathematics and physics for high classes

End of Bachelor's degree project — [Lebanese University](#) Saida - Lebanon
From May 2018 to October 2018
Creation of a patch antenna at a frequency of 5 GHz
