SUMMARY

Recent graduate in software engineering from Antonine University with a strong foundation in front-end and back-end technologies. Seeking a full-stack development role to apply expertise in software development and contribute to innovative projects.

EXPERIENCE

Middle East Airlines, Beirut   Jan 2024 – Feb 2024
IT Department Intern
- Collaborated closely with the developers' team, contributing to ongoing projects.
- Acquired insights into the practical applications of software engineering principles in the aviation industry.
- Enhanced understanding of the integration between different IT systems and their critical role in ensuring operational efficiency and customer satisfaction.

Inventures – Resource Group, Beirut   Jun 2023 – Sep 2023
Full Stack Developer Intern
- Collaborated in a two-person team to successfully develop an ERP System for Inventures.
- Acquired and applied new skills in both Frontend and Backend development, utilizing HTML, CSS, AngularJS and TypeScript, and Figma for Frontend design, and ASP.NET Core C# and Microsoft SQL Server for Backend.
- Designed and implemented multiple user role types, each with distinct functionalities, enhancing the system's versatility.
- Achieved the development of essential functionalities, including user payroll management, project cost calculation, employees' days off logging, and other financial aspects.

Vanrise Solutions, Beirut   Sep 2022 – Nov 2022
Full Stack Developer Intern
- Built a CMS using AngularJS, ASP.NET Core C#, and MySql.
- Analyzed website technology tutorials, attended meetings, shared daily progress, and documented work.

Eddys Group, Beirut   Jun 2022 – Sep 2022
Full Stack Developer Intern
- Worked in a team of three to build a CMS and an Application for a recycling company based in UAE.
- Developed a website which is used by administrators to view and monitor data received from the application, and it was built using Laravel Framework with HTML, CSS, Vue.js, and MySql.
- Created an application that is used by users who want to recycle and earn points, and it was made using Flutter.
