

Johnny Sleiman

Charlotte, NC, 28210 | +1 (980) 346-4757 | sleiman.johnny1@gmail.com

Education

Notre Dame University (NDU)

Beirut, Lebanon

Bachelor's degree in Information Technology

Sep 2016 - Aug 2021

Major GPA: 3.3/4.0

Relevant Coursework with Grades: Advanced Software Development (A+) Internet Computing (A) Web Design (A)

Capstone Project

- Created a COVID-19 web application showing different statistics such as cases, deaths, and number of tests made in a certain country while covering different provinces
- The administrator has a login page that can be used to add, delete or alter the website's data that is visible to the end user, who can fill a contact us form that becomes visible for the administrator after submission
- The Model-View-Controller (MVC) framework was used for the implementation of the web application
- CRUD (create, read, update, delete) operations were implemented and all the data used was inserted/retrieved from a database using MYSQL and PHP
- Used other languages such as HTML, CSS, JAVASCRIPT, and BOOTSTRAP
