ALI MAYLADAN

ABOUT ME

A computer science student getting master degree in Lebanese University interested in deep learning and computer vision.

EDUCATION

2019 - 2021 • Bachelor's degree in computer science in Lebanese University

2021 - now •Getting Master degree in Computer Science at Lebanese University

EXPERIENCE

2021 Building Accounting System
Create a full accounting management system for apartment owners building in java launguage using javafx

2021 Machine Learning
Machine learning and deep learning self learner by taking online courses and tutorials (coursera,kaggle)

2022 Modifying a food app java based project
Modified a java project with my colleagues.

2022 Deep Learning Internship
Applied to a Deep learning internship at CNRS with GEO group. Major task was modifying model of the geopose project to get better results.

Now Currently finishing up internship and improving my experience in deep learning field by learning more about the field and reading more papers

SKILLS

Python(pandas,numpy,opencv, tensorflow,pytorch,PIL...)

Java (javafx,spring framework)

GCP

Object Oriented

C#(Asp.Net core)

C/C++

Sql Server

MySql

Php,HTML,CSS
