

HASSAN HIJJAWI

COMPUTER SCIENCE

Summary

A Computer Science undergraduate at the American University of Beirut - Expected to graduate in June 2024. I am a young person insisting on achieving my goals step by step. Even though it is a challenging road, I won't give up.

Experience

IT assistant

American University of Beirut - Information technology office.

September 2022 - January 2023

This is part of the Work-study program my university offers. My main tasks were assisting the work at the office, keep all computer equipment running smoothly and install new hardware or software.

A front-backend project in Web development course.

Implemented the game connect-4 in C++ as a project in Software Construction course. It supported a 1 vs 1 mode and a 1 vs bot mode. The bot was implemented using the mini-max algorithm.

Education

American University of Beirut

September 2021 till present - Graduating in June 2024.

Bachelor of Computer Science

3.76/4 GPA

Skills

Knowledge in Java, C++, Python, HTML, CSS, JavaScript, and C. Familiar with backend frameworks such as .NET.

Understanding of Web Development, Algorithms and Data Structures.
