Bliss house

(August 2018- January 2019)

Cashier

Kaco doner

March 2020 – December 2021)

Cashier

Personal experience

Website for computer and technology

learning skills: *this project I worked on with my friend and we launched it for serval months then we removed the web because we had to focus on school*

Android app: for the same project we created a android app and we launched the app the remove it for the same reason

Android and iOS app: this was a school app that I suggested my school about and at first I finished the app first version and quarantine came and my school stopped supporting the project so it was the end of this project.

A lot of small apps and websites and web scripts that I made for training
