

Mario Farha

Beirut, Lebanon | (+961) 76315516 | mariofarha123@gmail.com | 19-Nov-2002

Profile

Motivated computer science graduate with a solid foundation in programming, database management, and software development. Eager to learn and contribute to innovative projects, leveraging academic knowledge and a passion for technology to grow professionally. Adaptable and committed to expanding technical skills while delivering value to a dynamic team.

Experience

DATA ENGINEER | AREEBA | 02/2024 – 04/2024

During my internship at Areeba in the data field, I gained valuable experience in understanding the company's database infrastructure, including transaction tracking and merchant information management. I actively contributed to a database migration project, where I successfully transferred data to a single store area. Additionally, I assisted my team in expediting their tasks, demonstrating my ability to work collaboratively and efficiently. Furthermore, I engaged in a credit score project, conducting thorough research to explore potential strategies for achieving our objectives. These experiences enhanced my skills in data management, teamwork, and problem-solving, making me a valuable asset in data-related roles.

INFORMATION TECHNOLOGIES | HIGHTECHSQUARE | 06/2023 – 09/2023

During my remote work at HighTechSquare as an IT , I gained valuable hands-on experience in web development technologies such as CSS, HTML, and PHP. I actively participated in various projects where I applied my skills to create and improve user interfaces, develop dynamic web pages, and enhance website functionality.

SALES ASSOCIATE | LC WAIKIKI | 11/2022 – 01/2023

Accomplished retail sales professional with a track record of providing exceptional customer service, optimizing product pricing, and maintaining store aesthetics. Proficient in assisting customers and ensuring a visually appealing shopping environment.

Education

BACHELOR IN COMPUTER SCIENCE | 09/2020-01/2024 | LEBANESE INTERNATIONAL UNIVERSITY

Project

BIDEVERSE

Developed as a senior project, Bidverse is a dynamic bidding application that allows users to explore and participate in auctions seamlessly. Users can browse through a diverse range of items available for bidding, place competitive bids, and even list their own items for auction.
