OBJECTIVE

Highly skilled and passionate programmer seeking a challenging position to leverage my technical skills and experience in developing innovative software solutions.

SKILLS & ABILITIES

Programming Languages:

- Java: Proficient in object-oriented programming, with hands-on experience in developing scalable and efficient applications using Java frameworks.

- Web Development: Proficient in HTML, CSS, and JavaScript, with experience indeveloping interactive and visually appealing websites.

- PHP: Familiarity with PHP and ability to develop dynamic web applications with various PHP frameworks.

Frameworks and development environments:

- Android Development: Extensive knowledge of Android SDK and experience in developing feature-rich, user-friendly Android applications.

- AngularJS: Strong familiarity of AngularJS framework and ability to build responsive web applications with seamless user experiences.

- Node.js: Proficient in server-side JavaScript development using Node.js

- C++ with Robotics: Solid understanding of C++ programming language and experience in utilizing it for robotics applications, including sensors, actuators, and control systems.

- Next.js: Proficient in utilizing Next.js for dynamic and responsive web application development, contributing to enhanced user experiences.

- PHP Laravel: Skilled in Laravel framework for building robust and scalable web applications, ensuring efficient performance and reliability.

- Unity: Competent in Unity game development platform with expertise in C#

programming, creating immersive and interactive gaming experiences.

- Wordpress: Experienced in Wordpress for website development and content management, leveraging its user-friendly interface and extensive plugin ecosystem to deliver customizable and feature-rich web solutions.

Software Development:

- Agile Methodologies: Strong understanding of Agile principles and experience in working collaboratively in Agile development environments.

- Version Control: Proficient in using Git and other version control systems for efficient code management and collaboration.

- Proficient in designing and interpreting Entity-Relationship Diagrams (ERD) to model database structures effectively.

- Skilled in creating Use Case Diagrams to depict system functionalities and user interactions, aiding in requirement analysis and system design.

- Experienced in developing storyboards to visualize user interfaces and user interactions, facilitating the design and development process.

- Capable of documenting business processes and workflows to streamline project management and enhance operational efficiency.

- Proficient in preparing project presentations to effectively communicate project goals, progress, and outcomes to stakeholders.

- Database Management: Experience in working with SQL and NoSQL databases, designing database schemas, and writing optimized queries.

- Testing and Debugging: Skilled in unit testing, integration testing, and debugging techniques to ensure robust and error-free code.

Additional Skills:

- Problem-solving: Strong analytical and problem-solving skills with the ability to identify issues and develop effective solutions.

- Communication: Excellent verbal and written communication skills, with experience in collaborating with cross-functional teams and clients.

- Teamwork: Proven ability to work collaboratively in a team environment, contributing to project success and meeting deadlines.

EXPERIENCE

**19/9/2021-
20/8/2022**

IT Networking and technical Support , AMB Group

- Server Management (Windows Server-Active Directory)
- Technical Support
- Troubleshooting
- Network and System Administration
- NVR/DVR configuration
- Domain maintaining
- Grand stream network and VoIP voice configuration
- Routing and IP addresses management

**20/2/2023-
20/8/2023**

Web Design, Limescent

- Hands-on experience in Wordpress development
- Basic understanding of SEO principles

**6/7/2022-
8/10/2022**

Web Design, Cedars Code

- Hands-on experience in Wordpress development
- Foundational experienc in Laravel framework, contributing to the development of web applications and enhancing overall project capabilities.

EDUCATION

2020-2024   Bachelor's degree in Computer Science, Beirut, LIU (Lebanese International University)

2019-2020   Life Sciences baccalaureate degree

CERTIFICATES

2022   CISCO (CCNA)
CCNA 1: INTROCDUCTION TO COMPUTER

2023   CISCO (CCNA)
CCNA 2: ROUTING AND SWITCHING
